Dear Hershey Member,

I am writing to remind all Hershey members of the informal meetings that will be held onsite at your plant this evening and tomorrow to receive the complete Tentative Agreement reached with your Company so that you may review it, ask questions and comment in advance of the ratification meeting scheduled for April 15th. These meetings are also scheduled for April 8 and 9 to allow for small groups of employees to accommodate social distancing. These onsite informal meetings were scheduled after earlier plans to review and consider the terms were postponed due to the ever changing COVID-19 situation and the Governor’s order limiting gatherings to small groups of people.

As you know, due to the COVID-19 pandemic, we have had to alter our planned meetings on multiple occasions to ensure the health and safety of you and your fellow members and to comply with the Governor’s directive. It has always been our intent, as we have each contract, to provide a copy of the complete agreement and hold ratification meetings. This pandemic has made us change course multiple times, resulting in a contract extension with your Company.

As we all have been advised by public health experts to expect that the worse period of this pandemic will occur during the next few weeks we will continue to discuss with your stewards any further modifications to this schedule and process that may be required for everyone’s safety.

Thank you,
Wendell W Young IV
President,
UFCW Local 1776 Keystone State
